Dentistry.

C. Francis Barnard, M. D.

SURGEON DENTIST.

DR. BARNARD HAS HAD FOR several months the "Perkins Hyatt" or "Celluloid Base," the newest and latest material adapted to the mounting of whole sets of teeth. He is also using "Whale bone-Rubber," which is rapidly supplanting, for single dentures or partial sets the best vulcanites of the last 25 years.

We cheerfully add Dr. B's card to our columns, convinced that his good taste and judgment, united to natural skill and ingenuity, aided by an extensive practice of upwards of thirty years, render his services more valuable and reliable than those of any other Dentist on the Sound, Coast or Island.

Dr. B's large experience may be readily seen in the happy and natural expression given his patrons by his life-like insertion of artificial Teeth.

The public may rest assured of patience, gentleness and undivided attention while under the Dr's hands, and that he will ever strive to be for most in adopting helps and hints touching his own interest and that of his patrons.

OFFICE AND RESIDENCE—Douglas Street, between Dr. Powell's premises and Willson's Tea Store. Business hours from 8 a m till 5 p m.

Victoria, Nov 4, 1871. dc5 daw is

MILLS BOWDEN,

DENTIST,

HAVING PROCURED THE ASSISTANCE of W. B. Thompson, Mechanical Dentist, hopes in the future to accommodate all who may require his services.

OFFICE—Over H. F. Heisterman's, Langley street.
HOURS—From 9:30 a. m. to 4 p. m.
Back entrance on Government st. ja26

FRENCH BENEVOLENT SOCIETY

Founded in Victoria, B.C., Feb. 21, 1860.

THE POSITION OF THE ABOVE SOCIETY at the end of 1872 as compared with 1871 is as follows:

1871.

Houses and Garden	$3795 28
Land	850 00
Furniture	873 00
Cash	65 40
	$5583

1872

Houses and Garden	$4081
Land	859 06
Furniture	982 31
Cash	723 64
	$6637 21

Balance in favor of 1872—$1053 53.

The following officers have been elected for year 1873.

J. RUEFF, President;

HOLLOWAY'S

PILLS AND OINTMENT

Every Man his own Physician.

CAUTION.

THE immense demand for HOLLOWAY'S PILLS and OINTMENT has tempted unprincipled parties to counterfeit these valuable medicines.

In order to protect the public and ourselves, we have issued a new "Trade Mark," consisting of an Egyptian circle of a serpent, with the letter H in the centre. Every box of genuine HOLLOWAY'S PILLS and OINTMENT will have this trade mark on it; none are genuine without it.

N. Y. CHEMICAL CO., Sole Proprietors,
78 Maiden Lane, New York.

DIAMOND SPECTACLES

TRADE MARK

THESE SPECTACLES ARE MANUFACtured from "Minute Crystal Pebbles," melted together, and are called Diamond on account of their hardness and brilliancy.

It is well known that spectacles cut from Brazilian or Scotch pebbles are very injurious to the eye because of their polarizing light.

Having been tested with the polariscope, the diamond lenses have been found to admit 15 per cent. less heated rays than any other pebble.

They are ground with great scientific accuracy, are free from chromatic aberrations, and produce a brightness and distinctness of vision not before attained in spectacles.

Manufactured by the Spencer Optical Manufacturing Company, New York.

For sale by responsible agents throughout the Union.

J. L. JUNGERMAN,

JEWELER AND OPTICIAN,

IS SOLE AGENT FOR VICTORIA, V. I.

From whom they can only be obtained. No Pedlars employed.

The great demand for these Spectacles has induced unscrupulous dealers to palm off an inferior and spurious article for the Diamond. Great care should be taken to see that the trade mark ◇ (which is protected by American Letters Patent), is stamped on every pair. no15is

PROSPECTUS

—OF THE—

FRASER RIVER

BEET SUGAR COMP'Y,

(Limited.)

Capital, $50,000 in 500 Shares of $100 each.

Deposit on Allotment, $5 per Share. Calls not to exceed $5 per Share, 30 days to elapse between each call.

PROVISIONAL DIRECTORS:

ERNEST PIGHT, Esq. JOHN A. WEBSTER, Esq.
G. N. TREW, Esq., M.D. J. G. BEETER, Esq.
HENRY ELLIOTT, Esq. J. K. SUTER, Esq.
WILLIAM YOUNG, Esq.

Secretary and Treasurer - - HENRY V. EDMONDS
Solicitors - - - Messrs. ROBERTSON & JOHNSON
Bankers - - - - BANK OF BRITISH COLUMBIA

Registered Office, Columbia Street, New Westminster.

The Fraser River Beet Sugar Company (Limited) has been formed for the purpose of Manufacturing Sugar from Beets, to be grown on land acquired by the Company, consisting of rich alluvial soil well adapted to their growth.

This land contains all the essentials necessary for the cultivation of the best description of Sugar Beet, being very rich in vegetable matter, and experience has shown that it is unexcelled for the purpose. Large tracts of equally valuable land can be had on very favorable terms; certainly not exceeding one-tenth of the price of similar land in California, an important consideration, as it will make a large difference in the amount of carital required.

From experments already made on the land, the yield was found to be equal if not superior to that from land cultivated in the most favored localities on the most improved principles.

The percentage of saccharine matter, according to published records of European cultivators, gives 8 to 9 per cent. as the average; whereas in the Fraser Valley the percentage was 10 to 11; six-tenths being granulated sugar of very fine quality, and the remainder Molasses of fine flavor, a result unknown elsewhere.

This being the result on new land, and with the most imperfect appliance, it will be readily understood that with a proper system of cultivation and with proper machinery, the profits of the company will be very large.

The quantity of sugar imported into this Province for the year ending June 30th, 1872, was valued at over $100,000; the importations of molasses during the same period amounted to $18,000. It will, therefore, be seen that a ready market is open for all the sugar and molasses the company can produce. The pulp or refuse composes the best kind of food for fattening cattle during the winter months, when the highest prices are obtained for Beef, Mutton, &c.

The cost of labor, it is calculated, will be as low as in California, while the fuel and other materials, including the lumber for building, will be lower.

As the company proposes to commence operations on a limited scale at first, the Capital Stock has been fixed at $50,000, while power is reserved to the Shareholders to increase the working capital to $100,000, if considered desirable.

☞ Letters of allotments can be obtained from the Secretary of the Company at New Westminster and from the Bank of British Columbia, or Messrs. Robertson & Johnson, at Victoria.

Notices.

DOMINION GOVERNMENT SAVINGS BANKS.

PUBLIC NOTICE IS HEREBY GIVEN THAT under authority of Act 34 Vict., chap, 6, of the Parliament of Canada, Dominion Government Savings Banks will be opened on the 2nd December next at the undermentioned places in the Province of British Columbia and in charge of the following officers;

JOHN GRAHAM, ESQ., Assistant Receiver General, Manager at Head Office, Victoria;
F. G. CLAUDET, ESQ., Acting Agent of Branch at New Westminster.
JAS. HARVEY, ESQ., Acting Agent of Branch at Nanaimo

Until further notice Deposits will be received at the abovementioned Savings Banks in sums of not less than One Dollar and multiples of a dollar. All Deposits will bear interest from date of deposit to date of withdrawal at the rate of Five per cent. per annum, the interest accrued to 30th June being added to principal on that date every year.

Moneys can be withdrawn, without notice, to the extent of $100, but for any sum in excess of that amount seven days' notice must be given by Depositors.

As all Savings Banks established under the Colonial Ordinances will be closed on the 30th November next, it has been arranged that the cheques of the Provincial Treasurer in liquidation of Colonial Savings Bank liabilities shall be received in the Dominion Savings Banks and bear interest from that date if deposited before the 1st January next. By order,

THOMAS D. TIMS,
Financial Inspector.

IN MEMORIAM.

To the W. M., Officers and Brethren of the Nanaimo Lodge, F. & A. M., No. 3, B.C.:

WE the undersigned Committee, appointed to draft resolutions in regard to the loss of our beloved Brother Thomas Jacks Ainsley, respectfully submit the following:

WHEREAS, It has pleased the Great Architect of the Universe to remove from us our worthy and well-beloved Brother Thomas Jacks Ainsley, Commander of the Oregon Steamship Company's steamer "George S. Wright," who is supposed to have lost his life in the discharge of his duties in January, 1873, in Queen Charlotte's Sound; and

WHEREAS, It is fitting that we should express the regret and deep sorrow that we feel for the loss of our friend and Brother; therefore, be it

RESOLVED, That by the death of Brother Ainsley we have lost an upright and zealous Brother, and those who knew him, an esteemed and valued friend.

RESOLVED, That the sincere sympathy of this Lodge be tendered to his relations and friends in this the hour of their affliction.

RESOLVED, That the Jewels of the Lodge be draped in mourning, and that the Brethren wear the usual badge for thirty days.

RESOLVED, That these resolutions be spread upon the Minutes of the Lodge, and that they be published in the Victoria and Portland papers; and also, that copies be transmitted to the relatives of our lost Brother.

[Signed,]

Religious Feud.

The Ontario Legislature is under a cloud just now. A bill to incorporate the Christian Brotherhood, a Roman Catholic order, passed with no opposition worth speaking about. A bill to incorporate the Orange Association of Ontario evoked a perfect storm of opposition. Those who supported the measure contended that it was no more objectionable from a Roman Catholic point of view than the Brotherhood bill was, viewed from a Protestant standpoint, and that legislation ought to be fair to both parties. The opponents of the Orange bill contended that there was little or no parallelism, that the Orange institution was a strictly secret society, and Mr. Frazer produced and read a copy of the oath of the order by way of sustaining the contention. After a lengthy and very acrimonious debate, a motion to refer the bill back to Committee in order to comply with a formality in its promotion occasioned a division which may be taken as approximately indicating the relative strength of those for and against the measure. The vote stood 38 yeas, to 30 nays, showing a thin House, in all probability many members ratting. This division cannot properly be accepted as a test of political party strength. Indeed a notable feature of the case consists in the fact that we find the leader of the Government (Mr. Mowat) voting in favor of the bill, and Messrs Crooks, McKellar, Pardee, and Scott, four members of the Government, voting against it! The bill had not come to a second reading when the mail left; but several of the usually warmest supporters of the Government were understood to be prepared to cross to the Opposition benches should four Ministers be found opposing the bill on its second reading. The question excited much interest and journals inimical to the existing Administration professed to see in it the beginning of the end of the Grit government. It seems to be cause for regret that some other question could not have been hit upon to test the strength of parties. A change of government upon such a question would scarcely conduce to the promotion of that spirit of religious liberty and toleration in which we had hoped to see Ontario setting a noble example.

Important Measures.

It will have been seen from our Dominion Parliamentary summary that the Hon. Peter Mitchell, on the first day of the session, gave notice of two measures both of which have an important bearing on the maritime interests of British Columbia. That which aims at doing away with deck-loading ships during certain months of the year will probably operate prejudicially to the lumbering interests of this province. We are led to believe that, on an average, vessels resorting to Burrard Inlet for lumber carry one-fourth of their cargo on deck. Vessels engaged in the Puget Sound lumber trade do the same thing. It will readily be seen that if vessels leaving Burrard Inlet are prohibited from carrying deck-loads, and vessels sailing from ports on Puget Sound are still permitted to carry deck-loads, we shall have either to pay higher freight rates than Puget Sound, or see the shipping give us the go-by. In other words, we shall not be able to compete with our neighbors. This is, indeed, a serious matter, and one that should be treated as such. In enacting a measure of this nature, would it not be well that the Dominion Government should endeavor to make a treaty arrangement with the United States, in order to secure, if possible, uniformity? If, as it is contended, the measure is necessary for the due preservation of life and property on the high seas, it is just as much needed in American as in Canadian waters, and it would, therefore, seem to be a most fitting subject for international action. Ours is not the only instance in which Dominion maritime interests would suffer; and it is for Parliament to consider well the influence of such a measure upon the important shipping interests of the country. Perhaps, however, a more ready and practicable mode of accomplishing that object would be for our representatives to make such representations as would, for the present, exempt British Columbia from the operations of the measure. There is sufficient ground upon which to urge such exemption. It is to be presumed that the member for New Westminster, in the House of Commons, who must thoroughly understand the subject, will especially seek to guard our interests in this respect. As for the other measure of which notice has been given, something of the kind would appear to be highly desirable in the interests of the Pacific Province; for, as we endeavored to point out yesterday, British Columbia is practically destitute of any law or machinery regarding such matters.

SURPLUS STOCK.—The arrival of the steamship Prince Alfred with a large shipment of new Spring Goods for A. B. GRAY occasions in his store a large amoun of Surplus Stock. The New Goods now being opened embrace an elegant variety of the newest Dress Materials, Black Silks, Velveteens, Alpacas, Canton, Shirtings, and other Flannels, Shawls, Sheetings, Table Linens, Curtains, Umbrellas, Flowers, Hats, Jet Jewelery, a complete assortment of Haberdashery, &c. Particular attention is directed to the Dress Goods, which were specially selected for the present and the approaching season. The above surplus of NEW stock will be increased by fresh shipments monthly, and all will be sold. PRICES RIGHT. *

The Atmosphere of Spring.

With every change of season we have a change in the hygenic character of the air. In the spring it is impregnated, especially in low lying, wet districts, with mephitic vapors, which generate chills and fever, rheumatism, indigestion, biliousness and diseases of the organs of respiration. It is therefore particularly necessary at this time of the year to invigorate and regulate the system so as to enable it to repel the morbid influences to which it is more or less subjected. The stomach should be toned, the bowels freed from obstructions, the blood purified, and the nerves braced and strengthened. This can be easily done. Hostetter's Stomach Bitters are everywhere procurable; and in the whole range of remedies and preventives proscribed by the faculty or recommended through the press, there is not one that combines in such an eminent degree great efficiency and perfect harmlessness. It is a positive antidote to malaria. Whoever takes it habitually may breathe the atmosphere of the worst fever and ague locality without danger. Damp and chilling winds make little or no impression on the organization reinforced with this powerful vegetable invigorant, and consequently it is a good safeguard against asthma, coughs, colds, and other pulmonary complaints. It is not recommended as a remedy for this latter class of maladies, but simply as a means strengthening the System against the aerial conditions and changes which so often produce them. As a spring invigorant and alterative it will be found extremely beneficial to persons who are peculiarly sensitive to unhealthy atmospheric influences.

FELL'S COFFEE, superior to any other manufactured on the Coast, may be obtained of all respectable dealers throughout the Colony. *_*

Testimonials.

We, the undersigned Physicians, practising in the city of San Francisco, have examined the result of the analysis made by Dr L. Lansweert, Practical Chemist, of the Napa Soda Springs of Napa. The water, according to this examination, possesses aperient antacid and fine properties, which cannot fail to be very beneficial in the treatment of chronic diseases, and affording a pleasant, healthful and invigorating beverage.

Prospectus

OF THE

BELMONT TANNING

AND

BOOT AND SHOE MANUFACT'G CO.

LIMITED.

CAPITAL. - - - $100,000,

WITH POWER TO INCREASE, DIVIDED INTO

1000 SHARES OF $100 EACH.

Deposit, 10 per cent. Calls, not exceeding $10 per Share, at intervals of not less than Thirty Days.

PROVISIONAL DIRECTORS;

R. FINLAYSON, E. GRANCINI,
J. H. TURNER; M. W. T. DRAKE,
JOHN SWITZER, T. L. STAHLSCHMIDT.

Solicitors—DRAKE & JACKSON.

Bankers—BANK OF BRITISH COLUMBIA.

THE COMPANY IS FORMED FOR THE purpose of acquiring the property known as the Belmont Factory, situate on Esquimalt Harbor, and the business carried on therein, consisting of Tanning and Boot and Shoe Manufacturing, and of continuing the same.

The purchase would include the Land, Buildings, Machinery, Plant, Stock-in-Trade and goodwill of the business, all of which it is proposed shall be taken at a valuation to be made by competent disinterested persons.

The Boot and Shoe Department has for the past two years been carried on under the management of Mr. Switzer, almost exclusively by Chinese labor, at a small cost, but the recent addition of the Tannery, which was found a necessity, in order to maintain a sufficient supply of good material, has required a considerable outlay, and renders the introduction of further capital necessary for the proper development of the business.

The Factory is well arranged, and is fitted with the most approved Machinery.

The Tannery has every appliance for the saving of labor.

The Water Power which is utilized for the conduct of Works, is all that could be desired, and could readily be increased to ten times its present power, if at any time required, either for the purposes of this undertaking, or for any other Manufactory. The supply is derived from Springs on the Estate, is very soft in quality, and is never failing.

In fact the business is in thorough working order, and Mr. Switzer's services as Manager of the Works will be retained upon terms favorable to the Company.

The Land consists of 546 acres, known as the Spring Vale Estate, some of which is of excellent quality.

The Timber is of considerable value for Firewood, the situation being favorable for easy delivery.

The operations of the Boot and Shoe Manufactory during the past two years have been highly satisfactory.

The goods are specially adapted to the requirements of the Provincial trade, have given general satisfaction, and at a profit successfully compete with the imported article.

The sales for 1872 amounted to nearly $30,000, which, considering the short time the enterprise had been in operation, shows the favor with which the products have been received.

The importation of Boots and Shoes as declared at the Customs House for the year 1871, was about $100,000, representing a selling value, after adding duties etc., of say $150,000. The importation for last year fell off considerably, the decrease being doubtless partially occasioned by the local production. In addition to the demand for Boots and Shoes, as evidenced by the Customs House returns, the sales of Leather produced at the Tannery have to be taken into account, when considering the entire field for the operations of the undertaking.

The Tannery operations only commenced in August last, and as the tanning process involves a period of several months, the business of this Department is in its infancy—a very superior article is, however, being produced at low prices by an economical process, and, as there is no difficulty in obtaining an abundant supply of Hides, the out-turn will be sufficient for the supply of the general demand for harness, mill belting, &c., in addition to the requirements of the Boot Factory.

The Belmont Boot and Shoe Factory was the first enterprise of its kind established in the Province, and its having been so far carried on with success is an assurance that, as population increases, very remunerative returns will be realized.

The value of industrial institutions to the well-being of any country is indisputable, and as the hides produced in the Province are now being manufactured into leather, which in turn is made into boots and shoes, &c., (instead of as formerly being exported and the manufactured articles in turn imported,) the saving to the country by the undertaking is sufficiently obvious. It is, therefore, not unreasonable to assume that the advantages which the prosecution of such a reproductive institution insures will, aside from the remunerative character of the business, have due weight with all who are in any way interested in the prosperity of the Province.

It should be remarked that this company will become at once possessed of two businesses with established connections, without any interruption to working or loss of time in transfer, and will therefore have from the first day of its possession the revenue from a business which is capable not only of immediate, but, in the future, almost unlimited extension.

Most similar undrtakings of any magnitude are now worked successfully by joint stock companies, both in Great Britain and the United States.

The transfer of the property to the Company will only be made upon terms satisfactory to the Provisional Board of Directors, based upon the valuation. The purchase will be effected to a large extent in shares retained by the present proprietor, a portion of which will not participate in any profit until a dividend of 10 per cent. has first been paid to the new shareholders.

Applications for shares may be made to the Secretary pro tem., the Bank of British Columbia, or to Messrs. Drake & Jackson. mh26dw

It has Come to This!

Let the Local Government, the Pilot Board, the Chamber of Commerce, the People of Victoria, Burrard Inlet, New Westminster—of the whole Province—know that in consequence of the dangers attending the navigation of ships to and from Burrard Inlet the rates of freight have been greatly increased to our disadvantage. Sproat & Co. of this city have chartered the American bark Ava to load lumber at Burrard Inlet for Melbourne, and for every 1000 feet of lumber that the vessel may carry they have to pay $1 50 more freight than they would have to pay were she loaded at any Puget Sound mill. This is a fact. Facts are stubborn things. And should the rate be still further increased in consequence of recent disasters, the loss to the Province cannot be calculated. What are we going to do about it?

Weekly British Colonist.

Copies of this, the largest paper in the Province, may be had at T. N. Hibben & Co.s and at the Publication Office, to-day.

THE ITALIAN FLAG.—Yesterday, amid great rejoicing and toasting, the flagstaff of the Telegraph Hotel was successfully raised in front of that establishment. The pole measures 72 feet from the sidewalk. The Italian colors were run up and unfurled to the breeze. One's heart warmed at the unwonted sight in this city of the handsome flag proudly waving, the emblem of a united, independent and free country, one of the grandest productions of our modern civilization.

MASONIC.—The Grand Master of the Grand Lodge of Quebec, M. W. John H. Graham, of Richmond, has issued a proclamation suspending intercourse with the Grand Lodge of Canada (Ontario,) and has appealed to the Grand Lodges of the world to sustain the G.L. of Quebec. Some thirty-five Grand Lodges have hitherto recognized the Grand Lodge of Quebec as the only rightful Sovereign Masonic authority in and for the Province of Quebec.

MANITOBA APPOINTMENTS.—We (Toronto *Mail*) learn that Mr. J. N. Provencher has been appointed Indian Commissioner for the North-west *vice* Mr. Simpson, M. P., who has resigned; and that Mr. Lindsay Russell has been appointed Assistant Surveyor-General and Land Agent in the place of Mr. Gilbert McMicken. Mr. McMicken continues to act as Deputy Receiver-General.

THE INTERNAL REVENUE.—The Government at Ottawa have decided to extend to this Province the Internal Revenue laws now in force in Old Canada, and Mr. Dupont having been appointed Revenue Officer for this Province, will shortly return and take up his residence permanently amongst us.

PASSENGERS BOOKED. — The following passengers were booked by the Prince Alfred yesterday: N. Crosby, wife and niece, A Lichtenstien, wife and son, E.G. Farnham, J. W. Owen, W. Newland, F. E. Newberger and child, H. Lewin, J. Frauenthal, G Brown, G. D. Short and wife, Mrs. C. A. Bonning, J. Alberti, Miss E. Edwards, Miss Edwards, J. L. Sanderson and wife.

"ALADDIN'S LAMP."—This is the title of a very pretty ballad written by Charles Swain, arranged by Geo. T. Evans and published by Gray, of San Francisco. "You May Win Him Back by Kindness," another sweet composition, by J. G. Russell, is just out. For a copy of each we are indebted to T. N. Hibben & Co., of this city.

FROM THE DOOR. — A Chinaman stole two hams and two buckets from the door of Mr. Hodges' grocery store, on Monday evening. He was seen walking up Pandora street with the plunder by a little girl; but before Mr. Hodges could be apprised of his loss the gentleman from China had vanished.

JOHN F. SABISTON, who is a native of Inverness, Invernesshire, Scotland, and who is now in some part of the United States, has had some property of value left him, and by corresponding with John Rose, of Walla Walla, W.T., can obtain all particulars.

MR. ABBINGTON, the well-known lecturer, is about to deliver a series of lectures in England on British Columbia with a view to inducing the emigration of agriculturalists to this favored part of the Dominion.

RUMOR.—The Ottawa *Free Press* starts the rumor that Sir Francis Hincks is to be the next Lieutenant Governor of Ontario.

SCHOOL PIC-NIC.—The pupils of Mrs. Attwood's school indulged in a very pleasant pic-nic yesterday. They were conveyed to the suburbs in a 'bus.

ONE BILLINGTON has been sent to ornament the changang for six months for having sold liquor to a Siwash.

H.M.S. TENEDOS *left* Esquimalt yesterday morning for gun practice, steering towards San Juan.

Paupers' Graves.

We hear that Dr. Ash, one of the old Cemetery Trustees, has directed workmen to level the unmarked graves of persons who deceased at the Hospital, and convert the section wherein they lie into a grassplot or [croquet?] lawn! Has this step the sanction of the majority of the Board? Surely, after "life's fitful fever" we can afford to let the poor pioneers' bones rest in peace. They ask only six feet of old Mother Earth. Shall it be denied them? Far better to sod the little mounds that mark the resting-places, preserving the outline, surround all with a stout railing and erect a monument "*To the Unknown Dead*," than to allow dust that ought to be sacred to be trampled beneath unheeding feet. We should like to hear how the public will regard this action. It is a fate, remember, reader, that may be yours, to die in an hospital and be buried at the public expense. Shall your dust be held less sacred than if you had been interred with all the "pomp and circumstance" of an aristocratic funeral?

THE VENDETTA.—The Indian trouble at Alberni originated in this wise: A young Chief fell sick. An old Chief and his son undertook to cure the sick man, and cured him so effectually that he will never again suffer pain or sorrow in this world. The dead man's friends, believing that he had been foully dealt with, shot and killed the old Chief and his son. Now it so happened that the old Chief's widow belongs to a coast tribe of Indians, and *her* friends took up the quarrel and 16 of them started on the warpath to destroy the slayers of the old Chief and his son. On their way to wreak vengeance, they were met by Mr. Clark, who represents Sproat & Co.'s interests at Alberni, and on his promising to represent matters to the Superintendent of Indian Affairs they consented to return home and await the course of events.

SERIOUS OUTBREAK ON THE EAST COAST OF AFRICA.—Intelligence has just reached Bordeaux by the French mail from Goree that one of the English settlements on the river Gambia has been attacked by the natives, the buildings and property destroyed, and that the Mohametans were meditating an attack upon Bathurst, the principal town of the colony, and the seat of the British Government. The Europeans having been left for some time past entirely without protection, immediately dispatched a messenger to Goree for help from the French Government, and it is reported that a gunboat had been dispatched from Goree to protect French interests in the English part of Bathurst. The English merchants were in great anxiety for their lives and property.

THE WRECK OF THE "ALMATIA."—The steamer Enterprise with Mr. Finlayson, Lloyd's Agent, and the surveyors, returned from the wreck of the bark Almatia yesterday morning. The surveyors—Capts. McNeil, Walker and Rollins—examined the wreck and found the bottom badly stove, the timbers started and about five feet of water in the hold. They unanimously recommended the sale of the wreck. The standing rigging, masts, furniture and fittings of the bark have been placed on the beach and the wreck will be sold to-day by order of Mr. Finlayson. The cargo, which belonged to Sproat & Co., is fully insured.

FOR THE EAST COAST.—The steamer Sir James Douglas, Capt. Clarke, sailed yesterday morning for Nanaimo and way ports, with the mails, a large freight, principally composed of sugar, and the following passengers: Mrs. Drinkwater, Mrs. Charley and child, Messrs Lindsay, Webb, Levi, Hurst, Finney, Foster, Fry, Inwood. Mr. R. Foster, the contractor for the new public buildings, went up with another gang of men to get out stone from the Thetis Island quarry. The Sir James Douglas will go on the beach at Nanaimo to have a slight leak repaired and will return on Friday or Saturday.

THE CANADA PACIFIC RAILWAY.—The San Francisco *Call* says: The Canadians have entered with considerable spirit into the preliminary work of constructing their Pacific Railroad, whether the enterprise be ever consummated or not. Four hundred and twenty miles of the route have already been surveyed between Nipigon and Fort Garry. The engineers in charge report that an excellent road-bed is afforded by the line of survey. They state that track-laying will begin in the Spring and that this part of the road will be finished in two years.

LOADING AT LONDON.—The bark Charlotte Clark, 410 tons, is loading at London for Sproat & Co, to sail at the beginning of April....The Prince of Wales, for the Hudson Bay Company, is also loading at London to sail about the same time.

THE Prince Alfred was placed under the shears yesterday for repairs to her screw.

CHARTERED.—The Hastings Mill Company have chartered the ship Niagara to load lumber.

TO CLOSE.—The Mail and Express per steamship Prince Alfred will close at 4 o'clock this afternoon.

THE WILLIAMS RELIEF FUND.—We received yesterday from A. C. Elliott, Esq, P.M., $5.

THE steamer Maude, Capt. Holmes, will leave this port for Burrard Inlet on Saturday next.

GREAT BARGAINS. — By the steamer Prince Alfred, Messrs. Turner, Beeton & Turnstall have received an invoice of goods from London, which have been bought much under market prices. They would call particular attention to a very large stock of ECRU and BLACK YAK LACES, which are now the height of fashion in Europe. A very choice lot of Scotch Embroideries, full assortment of Quilted Satin Skirts, which are worn with overskirt or Polonaise and are the general costume in London and Paris this season; also Roman Scarfs and Shawls &c. The above Goods are now offered at little over half the usual prices. T. B. T. have received new designs in Carpets and Rugs, Patent Umbrellas, Down Quilts, Evening Flowers, &c., and a variety of other goods.

***

Central and South America.

SANVADOR.—The fine city of San Vincente had been nearly all destroyed by the earthquakes that occurred on the night of the 29th Dec. last. The upper half of the parish church fell to the ground. The general consternation is described as being horrible. The noise of the falling houses intermingled with the groans of the victims. Those who could fled in all directions. There were no robberies nor disorders.

PERU.—PANAMA, Feb. 21.—The news from Peru to the 13th instant is again of a startling and somewhat painful nature. Some time ago, a conspiracy against the Government having been detected in Arquipa, two colonels named Zerallos and Gomio were arrested and sent as prisoners to Callao, where they were put in confinement. The charges against them being clearly proved, President Pardo decided their case as military officers, and ordered them to proceed at once to do military duty on the Amazon River. This way of settling the question was considered unconstitutional, and the Permanent Committee of Congress represented to the Executive that they should be brought back and legally tried. Before this could be accomplished a row took place between the Colonels and their guards at Huamaco and they were both shot in attempting to make their escape. This occurred about 270 miles from Lima, at a hacienda where they had stopped on the night of the 20th inst., on their way to the Amazon.

An armed mob gathered round the halls of Congress, and even penetrated within, demanding that the Ministry should resign. The explanations given calmed the tumult; but a change of the Cabinet is certain, and a general revolution is much feared.

An explosion of 690 barrels of gunpowder took place at Coquimbo. Six men, one child and sixty donkeys were killed.

CHILE.—There are now in operation in Chile 55,015 miles of telegraph wires, and telegrams are transmitted at a uniform rate of thirty cents for fifteen words.

European Mail Summary.

The Northfleet fund amounted to £7,100, which was distributed as follows: Mrs. Knowles, the captain's widow, £1,000, to Mrs Gloack, the widow of the chief mate, and her five children, £800; to Mrs. Blyth, the widow of the second mate, and her husband's mother, whom he had supported, £300; to Mrs Stephens, the carpenter's widow, £300; to the parents of Hermann Kunde, the surgeon, £100; to the relatives of 18 of the seamen, £150; to the 14 widows and 22 children of the pasengers, and five orphan children, £1,950; to other dependent relatives of the deceased passengers, £600 (of which £40 pounds has been already paid), to the ten surviving members of the crew, £50; for providing clothing and outfits, and temporary maintenance for the 76 surviving passengers, £500; to the injured man Dixon, or his family, whom he had deserted, £200; to the pilot, Mr. Brack, by way of an honorarium £21; for the recovering and burying the dead, and local expenses, £150; to the masters and crews of the steam tug and luggers, who saved so many lives, £150; (in addition to anything they may get from the Board of Trade); and for general expenses and contingencies £500.

The Queen has sent a message of sympathy and a present of £30 to Dr. Hessell.

An anonymous benefactor has contributed £10,000 to the Hospital for Stone, Berners-street, London.

Mr. Charles Reade obtained a verdict with £200 damages against the 'Morning Advertiser' for a libel, imputing indecency to some of the passages in a play written by him, called 'shilly shally.'

On Monday Dr Hessell was presented with the amount subscribed as compensation for his sufferings in consequence of the unfounded charge made against him. The total amount received was about £1,200. He was last night entertained by a number of fellow-countrymen.

The London 'Times,' if it lives to see the 1st of January, 1885, will attain its hundredth birthday. It is already 'old enough to know better' than it sometimes says.—'Cosmopolitan.'

The doom of Northumberland House is sealed at last. The Duke has agreed to sell it for £500,000, and a great street, flush with Cockspur-street will run through it down to the Embankment. According to the rate books of St. Martin, the mansion was built in 1605 by Henry Howard, Earl of Northampton, from whom it passed to the Earls of Suffolk and received the name of Suffolk House. It came to the Percy family by the marriage of Elizabeth, daughter of the second Earl of Suffolk, to Algernon Percy, tenth Earl of Northumberland in 1642.

Mr. Justice Brett was occupied in the Court of Common Pleas in trying the action in which Mr. Odger claimed from the proprietor of the 'Figaro' damages on account of an alleged libel. The article to which the plaintiff objected contained the following passages:—"Know all men by these presents that Odger the Cobbler rules the Government of England. We have ere now made sport of the great man; henceforth we shall be respectful. We do not like the Cobbler; we abhor his principles; we regard him as an enemy to order; we hold him to be a demagogue of the lowest and most contemptible type—half booby and half humbug, a political cheap-jack, who would be a political sharper, if he had brains enough, and if no office can be found for Odger, Mr. Gladstone might advise Her Majesty to grant the victorious Cobbler a Civil List pension. Odger ought not to expect so much as Beales. He did not throw down the park railings; he only threatened civil discord." Mr. Odger went into the witness-box and was cross-examined at some length by the Attorney General. He denied that he had ever defied the law, or threatensd civil discord. The jury, after a long deliberation, returned a verdict for the defendant.

A London dispatch, speaking of the scene in the House of Commons on the night of Gladstone's defeat says: Last night's whip was the severest ever known in the House of Commons. One of the Conservative members was brought from Paris by special steamer and railroad train, and the Liberal whip is reported to have beseeched Sir Robert Peel, almost upon his knees, to go the House, but fruitlessly.

The San Juan Question.

(In the House of Lords on the 10th Feb.)

The Earl of Lauderdale, in rising to ask a question on this subject, said his inquiry was a nautical one. He had some knowledge of the channel in respect of which the Emperor of Germany had made his award. Though the Haro was the channel, the boundary line was still an open question. He therefore wished to impress on the Government the necessity of having the line itself accurately traced on an authorized chart. When it was so traced it ought to be signed by the Commissioners appointed to settle it. When he was on active service it used to be said that the man who went to sea without a chart knew little of his business. Well, he thought that those who attemped to settle this matter in 1846 went to sea without a chart, or, if they had one, this line was not marked on it. The Haro was the widest and deepest of the channels in those waters, and its depth was a great drawback to the navigation. There was no anchorage in it, and its course was something like two Z's. The tides instead of running through the Channel, run across it. For steamers it did very well, but it was not by any means suitable for sailing vessels such as those which carried the lumber on those seas. If the Americans chose to fortify San Juan our ships must pass under their guns. The Rosario would have been the channel for us, and we ought to have got it, seeing that up to 1846 the Columbian river was the clear and distinct boundary. We had given up 63,000 miles of land, and a country in which there was much gold, to the Americans. What we had given up was value for 20 millions sterling, while the Americans had never given up anything to us. He must make a slight correction in that last statement, for he believed they had given us up the navigation of a river in the Arctic regions. (A laugh.) While we insisted on the Rosario, the Americans insisted on the Haro Channel. Lord Russell proposed as a compromise the Middle Channel, and farther than that we ought never to have gone. We were on good terms with the Indians. There was war to the knife between them and the Americans. This might lead to squabbles with the Indians coming to our islands. Then quarrels would be likely to arise in consequence of the different tariffs of this country and the United States. The Alabama claims were only a joke to this matter, so great was its importence; but he was of opinion that the Treaty of Washington was a degrading one as regards this country. As for the Americans, the only question with them had been how much money could they get out of us. He begged to ask whether any and what measures had been taken to finally settle the boundary line in the San Juan quarter and whether it was to be marked down on a sea chart and signed by Commissioners appointed for that purpose by both nations. That was the question he had put on the paper; but he begged in addition to ask what construction was to be placed on these words of the Treaty of 1846:—"Provided always that said channel shall be free for the navigation of both parties."

Earl Granville.—The noble and gallant earl has not confined himself to the question of which he has given notice. He has gone, as he has a perfect right to do, in to many matters more or less connected with this question. He has given us the history of the last 28 years connected with it. I think, as to his observations on the Treaty of 1846, he will recollect that as it was made by a Conservative Government, it is not my business to defend it. As to the hypothetical cases he has put—respecting what the Americans would have done if the award had not been in their favour—it is impossible to give him a definite answer; but I will give a clear, and, I think, a perfectly satisfactory answer to the question of which he has given notice. The noble and gallant earl expressed much alarm that, this question being decided against us, some points should still be left open to future misconception. I think that alarm most reasonable on the part of the noble and gallant earl. The Treaty of 1846 professed to decide what should be the boundaries between our possessions in North America and the United States. Although it was not in the Treaty, a Commission was appointed for the purpose of drawing the line described by that Treaty. The Commissioners met, and were perfectly agreed as to the line until it reached a point on the Georgian Gulf. Then they differed. The American Commissioner contended that it ought to be drawn down the Haro Channel. We contended that it ought to be drawn down the Rosario Channel. Since that time the noble and gallant earl knows how impossible it has been, notwithstanding various attempts, to settle the question by arbitration or compromise. As I said the other evening, the compromise proposed by Earl Russell was to take the middle Channel, which was not known at the time the Treaty of 1846 was made, and was quite a different line from the Rosario Channel, for which we had always contended. Considered as a compromise, this had a great disadvantage of giving us all we cared to have and taking away from the Americans all they wished for, because all that either party cared for was the Island of San Juan, and the Middle Channel would have given us that. The Commissioners having differed on the point to which I have referred, various negotiations followed, and the question has at last been settled by an award unfavorable to us. On the 21st of October last the Emperor of Germany made his award; and we thought it right without loss of time to take measures to carry the award into effect. In the first place, we gave instructions for evacuation of that part of San Juan of which we held military occupation, and then we took steps to obviate the difficulty which the noble and gallant earl has pointed out. Fortunately, Admiral Keppel, our member of the Commission, had never given up his commission; and we therefore sent at once to the Government of the United States a proposal that the Commission should resume its labours, and we also suggested that, as a complete survey of those waters had been made, it would not be necessary for the Commissioners to meet on the spot. At the same time we desired the Hydrographer of the Navy, with Admiral Keppel, to go over the chart and draw the exact line which they considered to be in conformity with the award of the Emperor of Germany. They did so. Soon afterwards an answer came from the United States, agreeing to the renewal of the Commission, and also agreeing that the survey was complete, and that it was not necessary to have any further examination on the spot. The Government of the United States sent to this country a chart on which was drawn the line according to their view, and I am happy to say that though not absolutely the same as ours, it is as nearly identical as could be expected. We have sent out Admiral Keppel to the United States, with power, conjointly with Sir Edward Thornton, to sign four maps, two to be retained by each country, and to come to a decision as to the exact line where there was some variation between the lines marked on the charts I have just mentioned. The United States' Government have taken the necessary steps with the Senate to authorize what they have done, and I hope that in a very short time indeed this matter will be completely and satisfactorily settled.

The House adjourned at a quarter to 6 o'clock.

[Walla Walla "Union."]

The Earthquake's Doings.

Mr. Covington, who has a trading post on the Columbia river, at White Stone, informs us that he spent the winter in that country, and was there at the time of the earthquake last winter. He says that he counted

ONE HUNDRED AND FORY-TWO DISTINCT SHOCKS,

Continuing at irregular intervals for forty-two days. At one place he saw a crack in the surface of the earth which is now open for about one hundred and fifty yards in length, and is from two to three feet wide at the top, and is from two to six feet deep. At another place he saw where the bank of the Columbia river had

CAVED OFF AND SETTLED DOWN

For two or three hundred yards in length and for a width of about fifty yards. The mountains and cliffs were so shaken up and appear to be so greatly agitated and disturbed that large masses of rock are still constantly falling, tumbling and sliding down.

COURSE OF THE COLUMBIA CHANGED.

Formerly there was a stream or outlet to Lake Chelan about about a quarter of a mile long, by which the waters of that lake were emptied into the Columbia—now, however, the river has changed its course so that it runs to the lower end of the lake, and the two bodies of water unite. Our informant says that the Indians tell him that about thirty miles below White Stone, a high cliff or mountain which formerly stood on the right bank of the Columbia River now stands on the left, and that they can now easily ford the river at that point.

A BOILING LAKE.

They also say that a lake about fifteen miles from the mouth of the Okanagan River has been agitated, and a dense black smoke seems to issue from its bosom all the time. Mr. Covington inclines to believe the story, for he says that at White Stone the sun has not been plainly visible half a dozen times during the Winter because of a

DENSE FOG

that hangs over the whole country. From all that we can learn, the shocks were more severe in the country up the Columbia river, and the effects more noticeable than in any other locality.

NATURAL BRIDGE.

It is also reported that the earthquake made a bridge across the Columbia, at or near Fort Shepherd. This is in British Columbia, about thirteen miles north of the boundary line. We have not talked with any one who has seen it, but heard it from so many sources that there may be something in it; and it not altogether improbable that such a thing might occur as the banks are known to be perpendicular in many places, and a slight disturbance of the earth might cause them to topple together.

L.S.] JOSEPH W. TRUTCH.]

CANADA.

PROVINCE OF BRITISH COLUMBIA.

VICRORIA, by the Grace of God, of the United Kingdom of Great Britain and Ireland, QUEEN, Defender of the Faith, &c., &c., &c.

To all to whom these presents shall come—GREETING.

A PROCLAMATION.

GEO. A. WALKEM, } WHEREAS it is provided by
Attorney-General. } Section 3 of "The Municipality Act, 1872," that, upon receiving an application under the signature of the Mayor or President of any city heretofore incorporated or established, and under the corporate seal, stating that by a two-thirds majority vote of the Mayor and Council, they desire, on behalf of the inhabitants of such city, that the said Act shall apply to such city, the Lieutenant-Governor in Council by Letters Patent under the Public Seal of the Province, shall order that the said Act shall apply to such city so incorporated or established:

And whereas such application has been made as aforesaid, by the Mayor of the City of Victoria, to the Llautenant-Governor of British Columbia in Council, praying that the said Act shall apply to the said City of Victoria.

And whereas JOSEPH WILLIAM TRUTCH, as such Lieutenant-Governor in Council as aforesaid, under and by virtue of the powers and authorities conferred upon him in council as aforesaid, by "The Municipality Act, 1872," and of all other powers and authorities him as aforesaid in that behalf enabling, hath ordered that the said "Municipality Act, 1872," should apply to the City of Victoria, and that All that tract of land known as the City of Victoria, and the inhabitents thereof, should be a Corporation under the said Act, under the name of "The Corporation of the City of Victoria," and under the provisions hereinafter contained or referred to.

NOW KNOW YE that, by these presents, We do hereby order that "The Municipality Act, 1872,"should apply to the City of Victoria, and that all that said tract of land known as the City of Victoria, and the Inhabitants thereof, shall be a Corporation under the said Act, and under the provisions hereinafter contained or referred to.

The said Municipality shall be called and known by the name and style of "The Corporation of the City of Victoria,"

The said Municipality shall comprise all that tract of land as specified in the first part of the Schedule to the "Victoria Municipal Ordinance, 1867," as amended by Section 6 of the "Victoria Municipal Amendment Ordinance, 1869."

The Council shall consist of seven Councillors, and the whole number present at each meeting thereof shall not be less than four.

The nomination for the first election of Councillors shall be held on the 10th day of February, one thousand eight hundred and seventy-three, at twelve o'clock noon, and the election, in case a poll shall be demanded, shall be on the 11th day of February, aforesaid, and shall continue for one day only,and the poll shall be kept open between the hours of eleven a. m. and four p. m., and all the proceedings at the said elections, and the trial or trials, if any, of the validity of the elections, shall be as nearly as may be in conformity with the provisions of the "Victoria Municipal Ordinance, 1867" and Andrew Charles Elliott, Esquire, shall be the Returning Officer thereat.

The nomination shall take place, and the poll, if any, shall be held at the Police Barracks, Victoria.

Seven days' notice of the time and place of nomination, and holding of the poll, shall be given by the said Returning Officer, in one or more of the newspapers published in the said City.

Every person qualified to vote shall have seven votes, being one for each Councillor to be elected, but he may vote for any less number than seven: Provided always that he shall not cast more than one vote in favor of any one candidate, or vote on more than one occasion; and in the event of the number of votes being found to have been equal for any two or more candidates, one or more of whom, but not all of such candidates, being by the state of the poll entitled to be declared elected, the Returning Officer shall by a casting vote or votes, as the case may be, decide which of the candidates for whom the votes may be equal shall be elected; Provided that the said Returning Officer shall not vote, except in the case of an equality of votes as aforesaid.

All expenses attendant upon the said election shall be borne by the candidates in equal proportions. Such expenses shall not exceed in the whole one hundred dollars.

The first meeting of the Council shall be held on the 18th day of February, one thousand eight hundred and seventy-three, at the usual time and in the usual place for the holding of such meetings,and all proceedings at and relating to such meetings, shall be held and taken as nearly as may be in accordance with the "Victoria Municipal Ordinance, 1867," the "Victoria Municipal Amendment Ordinance, 1869," and all other Acts and Ordinances relating to the said city, except sofar as the same are altered by or inconsistent with "The Municipality Act, 1872," and until duly altered by By-Law in that behalf.

At the first meeting of the Council, the Councillors shall elect one of their number to act as Chairman,and to be designated as Mayor of Victoria, and his powers, privileges, and duties save as altered by or inconsistent with "The Municipality Act, 1872," or any By-Law to be duly made thereunder, and these Letters Patent shall be the same as those prescribed by the said Acts and Ordinances relating to the City of Victoria.

At such first meeting,or as soon thereafter as possible, the Council may appoint a Clerk, Treasurer, Collector, and Assessor, or such officers as they may deem necessary who shall hold office during the pleasure of the Council, and receive such remuneration as the Council may by By-Law appoint.

IN TESTIMONY WHEREOF, We have caused these Letters to be made Patent, and the Public Seal of the Province of British Columbia to be hereunto affixed: WITNESS, the Honorable JOSEPH WILLIAM TRUTCH, Lieutenant-Governor of the said Province of British Columbia, in the City of Victoria, in the said Province, this 25th day of January, in the year of Our Lord One thousand eight hundred and seventy-three, and in the thirty-sixth year of Our Reign.

} ;Command,
JOHN ASH,
Provincial Secretary. fe2

FRENCH MEDICINES,

Prepared by

GRIMAULT & CO.,

Pharmaceutical Chemists,

8, Rue Vivienne,

PARIS.

OF ALL THE MEDICINES OFFERED TO the public for many years past, none have met with such favorable reception, or as been so generally approved by the Medical Profession as those prepared by Messrs. Grimault & Co.

The model Laboratories of this firm, situated at Neuilly-sur-Seine, and managed by Dr. Leconte, Professor in the Faculty of Medicine, ex-Pharmacist of the Hospitals of Paris, and formerly Assistant to Dr. Claude Bernard, Professor of Physiology at the College of France, offers guarantees to be found in no other establishment.

Among other preparations we may specially mention:—

Leras' Liquid Phosphate of Iron.

It contains the constitutive elements of the bones and of the blood, add is the most rational of all chalybeates. It may be prescribed for the most delicate young females whose development has been retarded; for women suffering from stomach complaints, anæmia; for pale and sickly children deprived of appetite; and as its principal action is to restore to impoverished blood the iron in which it is deficient, and to the bones the phosphate that forms their base, it is recommended for debilitated persons whether their debility proceeds from disease or from any other cause. Its use is always attended with surprising results.

GRIMAULT & CO.'s
Syrup of Hypophosphite of Lime.

An excellent remedy for all affections of the chest; it relieves coughs, effectually prevents nocturnal perspiration and restors the patient's strength. This syrup is the only one which, ever since 1857, has invariably been attended with satisfactory results—a fact due to the purity of the hypophosphite employed. Be sure to observe that it bears the signature of Grimault & Co.

GRIMAULT & CO.'s
Iodized Syrup of Horse Radish.

Considered the best substitute for Cod-liver Oil. It has been ascertained by experiments made in the principal Hospitals of Paris that this syrup has always produced results superior to those obtained from the above-mentioned Oil, which patients find so disagreeable to take.

Not a single instance can be adduced in which pale lymphatic children, subject to swelling of the glands, to eruption of the skin, of the head or the face, or other inconveniences of a weak constitution, who have taken this syrup without deriving signal benefit from its use.

GRIMAULT & CO.'s
Pepsine Digestive Powders, Pills, Elixir and Wine.

Pepsine is one of the most recent scientific discoveries in theraputics. Acting chiefly on the organs of digestion, it possesses the property of effecting digestion by its innate virtues. It removes all the inconvencies of difficult digestion and even prevents the nausea to which pregnant women are liable.

The researches on pepsine made at the College of France by Dr. Leconte, in conjunction with Professor Claude Bernard, must secure the preference for our preparation of pepsine.

Lagasse's Syrup and Paste of Sea Pine Sap.

Employed with success in the treatment of catarrh, bronchitis, hemoptysis, and the different stages of phthisis.

It cures spitting of blood, the most obstinate coughs, alteration of the voice, oppression and pains of the chest, the nocturnal paroxysms of asthmatics, and modifies the more serious lesions of the respiratory organs.

GRIMAULT & Co.'s
Matico Injection and Capsules.

Composed of the essence extracted from the plant so called, they have been constantly employed with the most brilliant success in a certain class of contagious diseases.

They combine extraordinary efficacy with the advantage of never causing nausea, eructations, or pains in the stomach, as do the gelatinous capsules which contain Balsam of Copahu in a liquid state; or the strictures that result from the use of injections having a metallic basis.

GRIMAULT & Co.'s
Pectoral Lozenges of Lactucarium and Cherry Laurel.

This delicious comfit, containing the two most soothing substances of the whole Materia Medica is employed with success against coughs, influenza, bronchitis, hooping coughs, &c.

Asthma. Asthma.
GRIMAULT & Co.'s
Indian Cigarettes of Cannabis Indica.

All the means hitherto employed to relieve Asthma have been only palliatives in varied forms, based on belladona, stramonium, nicotiana, or opium. Recent experiments made in the Paris Hospitals have proved that our Cigarettes made of the extract of Indian Hemp possess remarkable virtues against this complaint, as well as against nervous coughs, chronic laryngitis, hoarseness, loss of voice, facial neuralgia, and insomnia.

Grimault & Co.'s Guarana.

A single powder of this vegetable production is sufficient to cure instantly the most violent sick headache. It is the most valuable remedy against diarrhœa, dysentery, and all disorders proceeding from derangement of the stomach or bowels. This powder is indispensable for all families, and far more efficacious than opium or sub-nitrate of bismuth.

GRIMAULT & Co.'s
Vermifuge Santonime Dragees.

Under the form of a comfit, equally pleasing to the taste and to the eye, they supply mothers with an easy and perfectly safe means of relieving their young children from intestinal worms, which are often the cause of convulsions.

Paleness of the skin and frequent irritation of the nose are nearly always the certain signs of the presence of worms. Preference ought always to be given in such cases to these dragees, the composition of which is well known and always the same, instead of those which are called vegetable, but often contain calomel or other forms of mercury.

GRIMAULT & Co.'s
Newfoundland Cod Liver Oil, and Cod Liver Oil, with Iodide of Iron.

The Cod-liver Oil which we offer to the profession and the public is especially extracted for our house in Newfoundland, and we can therefore guarantee its altogether exceptional purity.

Our Newfoundland Oil with Iodide of Iron, which contains in every tablespoonful two grains of pure Iodide of Iron, is a valuable resource in lymphatic and scrofulous affections, as also in consumption.

VICE PRESIDENTS—**Hon. Wm P. Howland, C. B.,** Lieutenant-Governor of Ontario;
Hon. Wm. McMaster, President Canadian Bank of Commerce;
Issued—Over 500 Policies first half-year.

This Association issues all the most approved forms of Policies—all non-forfeiting by charter. Its principle of non-forfeiture more favorable to assured than that of any other company.

A strong company which combines strength of capital, character and local influence and provides life insurance at the lowest safe rates without delusive promises of dividends, making a good dividend CERTAIN by decreasing the premium.

By its organization it enables each policyholder to deal with his own neighbors, stockholders in the company—men whom he knows will do justice to his family after he is dead, and also provides that its funds will be invested to develop the resources of his own country and locality.

A company with capital and breadth enough to be safe beyond question, with national extent and prestige, and yet a HOME company throughout the Dominion.

Opinions of the Press.

Duffield was the first to establish the character of Western Hams. His cure is invariably good, none better and he is emphatically the Western Pioneer in this business. They are especially prepared for summer keeping in hot climates, and are of a texture, tenderness and flavor unsurpassed.—"Cincinnati Gazette."

Duffield's Hams from "Porkopolis" are celebrated over the whole country. We can recommend them for their superior quality and flavor.—"N. Y. Express"

Hams of finer, sweeter flavor we can honestly say we never ate,—"N.Y. Commercial."

A delicious article.—"Baltimore Clipper."

Capital in quality and flavor.—"Liverpool Mercury."

Food for an Emperor.—"Liverpool Albion."

Duffield has had longer experience in ham curing than any other man in this country, and his hams need no recommendation where known.—"National Republican," Washington City.

Duffield's Hams have long been household words in Cincinnati, and Louisville, Ky., and their reputation has been fully sustained here.—"Chicago Tribune." mh7

T IS THE PHYSICIAN'S CURE FOR GOUT, RHEUMATISM GOUT, GRAVEL; AND ALL OTHER COMPLAINTS OF THE BLADDER.

And as a safe and gentle medicine for Infants, Children, Delicate Females, and for the sickness of pregnancy, Dinneford's Magnesia is indispensable.

Sold by all Druggists and Storekeepers.

N. B. Ask for DINNEFORD'S MAGNESIA, and use DINNEFORD'S Friction Gloves and Belts.

Medical.

FOR DYSENTERY, CHOLERA, AGUE, COUGHS COLDS, &c.

DR. J. COLLIS BROWNE'S
(Ex Army Med Staff)

CHLORODYNE.

IS THE ORIGINAL AND ONLY GENUINE.

CAUTION—Vice-Chancellor Sir W P Wood stated that Dr. COLLIS BROWNE was undoubtedly the inventor of CHLORODYNE: that the story of the defendant, Freeman, being the inventor was deliberately untrue which he regretted had been sworn to. Eminent Hospital Physicians of London stated that Dr J Collis Browne was the discoverer of Chlorodyne: that they prescribe it largely and mean no other than Dr Browne's—See TIMES, July 12, 1864.

The Public therefore are cautioned against using any other than

DR J. COLLIS BROWNE'S CHLORODYNE.

REMEDIAL USES AND ACTION.

This INVALUABLE REMEDY produces quiet, refreshing sleep,relieves pain, calms the nervous system restores the deranged functions and stimulates healthy action of the secretions of the body without creating any of those unpleasant results attending the use of opium. Old and young may take it at all hours and times when requisite. Thousands of persons testify to its marvelous good effects and wonderful cures while medical men extol its virtues most extensively using it in great quantities in the following diseases:—

Diseases in which it is found eminently useful—Cholera, Dysentery, Diarrhœa, Colics, Coughs, Asthma Cramp Rheumatism, Neuralgia, Cough, Hysteria, &c

The Right Hon Earl Russell communicated to the College of Physicians and J T Davenport that he had received information to the effect that the only remedy of any service in Cholera was Chlorodyne.—See Lancet Dec 31, 1864.

From A Montgomery, Esq., late inspector of Hospitals, Bombay: Chlorodyne is a most valuable remedy for Neuralgia, Asthma and Dysentery. To it I fairly owe my restoration to health after eighteen months severe suffering, and when other medicines had failed.

Dr Lowe, Medical Missionary in India reports [Dec 1865] that in nearly every case of Cholera in which Dr Collis Browne's Chlorodyne was administered the patient recovered.

Extract from Medical Times, Jan 10, 1866—Chlorodyne is prescribed by scores of orthodox remedical practitioners. Of course it would not thus be singularly popular did it not supply a want and fill a place.

Extract from the general Board of Health, London, as to its efficacy in Cholera.—So strongly are we convinced of the immense value of this remedy that we cannot too forcibly urge the necessity of adopting it in all cases,

Beware of spurious and dangerous compounds sold as CHLORODYNE from which frequen tfatal results have followed.

See leading article, Pharmaceutical Journal, Aug 1, v869, which states that Dr J. Collis Browne was the inpentor of Chlorodyni: that it is always right to use his reparation when Chlorodyne is ordered. "Dr J CoCAUTION—None genuine without the words Over whllis Browne" on the Government stamp. ottle elming medical testimony accompanies each b
